

ISAMMDoF2015

**International Symposium on Advanced Materials
Having Multi-Degrees-of-Freedom
– Optical properties, Structural Analyses,
Imaging and Informatics of Materials –**

**November 2-3, 2015
Kumamoto University,
Kumamoto, JAPAN**

SCOPE

The scope of the symposium covers comprehensive researches on material science and technology for advanced materials having multi-DoF. The following topics will be discussed in this symposium.

- Structure and electronic states for optical functionalities
- Structural imaging at active sites in advanced materials
- Superionic conducting phenomena
- Hierarchical macro-structured materials
- Optical properties of amorphous materials
- Dynamic processes under high temperature and high pressure
- Novel methods for spectroscopy and analysis materials
- Control methods of multi-DoF by using extreme conditions

SESSIONS

Mon, 2nd Nov, 2015		
Registration	9:00~9:25	2F Lobby
Opening (Prof. H. Akiyama, Director, IPPS)	9:25~9:30	D201
Session 1 (Chair: S. Hosokawa)	9:30~11:00	D201
<i>Coffee Break</i>	11:10~11:15	2F Lobby
Session 2 (Char: F. Shimojo)	11:15~12:45	D201
<i>Lunch Break</i>	12:45~13:50	
Session 3 (Char: M. Aniya)	13:50~15:05	D201
<i>Coffee Break</i>	15:05~15:20	2F Lobby
Short presentation for poster	15:20~16:08	D201
Photo	16:08~16:15	D201
Poster presentation-1 & -2	16:00~17:45	D211 & D314
Casual reception	18:00~	Forico
Tue, 3rd Nov, 2015		
Session 4 (Chair: Y. Nakamura)	9:00~11:00	D201
<i>Coffee Break</i>	11:00~11:15	2F Lobby
Session 5 (Chair: D. Kosumi)	11:15~12:30	D201
<i>Lunch Break</i>	12:30~13:45	
Session 6 (Chair: S. Ohmura)	13:45~15:30	D201
Closing (I. Akai)	15:30~15:35	D201

- Poster presentation accompanied with a short advertising oral talk (2 minutes)

VENUE

The technical sessions will be held at Kurokami South E3 Bldg. (Faculty of Science Bldg. 3) in Kumamoto University.

- Address:
Kumamoto University,
2-39-1 Kurokami Chuo-ku, Kumamoto 860-8555, Japan
URL: <http://ewww.kumamoto-u.ac.jp/>
- Access: http://ewww.kumamoto-u.ac.jp/en/about/access/access_map/
- Campus map: <http://ewww.kumamoto-u.ac.jp/en/about/access/campus/>

INVITED SPEAKERS

- Dr. Paweł Korecki
"What can we learn from table-top x-ray fluorescence holography experiments?"
Jagiellonian University, Krakow, Poland
- Dr. Manaschai Kunaseth
"Conformational analysis of long-chain cyclodextrin for drug delivery application"
Nanoscale Simulation Laboratory, National Nanotechnology Center (NANOTEC), National Science and Technology Development Agency (NSTDA), Thailand
- Dr. Jiri Orava
"Chalcogenide Glasses for Phase-Change Memory: Beyond the Silicon"
University of Cambridge, Department of Materials Science & Metallurgy, UK
- Professor Chongxin Shan
"ZnO: From Optoelectronic Materials to Devices"
Changchun Institute of Optics, Fine Mechanics and Physics, Chinese Academy of Sciences, China
- Mr. Artur V. Trifonov
"Quantum beats of quantum confined exciton states in quantum wells"
Spin Optics Laboratory, Saint-Petersburg State University, Russian Federation
- Professor Koichi Hayashi
"Exploring applications of X-ray fluorescence holography"
Nagoya Institute of Technology, Japan
- Professor Kenji Ohoyama
"Progress of Neutron Atomic Resolution Holography for Observations of Light Elements"
Ibaraki University, Japan
- Associate Professor Fumihiro Matsui
"3D Atomic Structure Imaging of Superconductors and Magnetic Materials by Photoelectron Holography"
Nara Institute of Science and Technology, Japan
- Professor Atsushi A. Yamaguchi
"Optical Polarization Properties and Carrier Recombination Dynamics in InGaN Quantum Wells"
Optoelectronic Device System Research & Development Center, Kanazawa Institute of Technology, Japan
- Assistant Professor Satoshi Ohmura
"Doping Effect on Photoabsorption and Charge Dynamics in Molecular Graphene-Fulleren Heterojunction"
Hiroshima Institute of Technology, Japan
- Lecturer Masahiro Ikeda
"Non-Arrhenius transport property in glass-forming materials"
National Institute of Technology, Fukui College, Japan

ORGANIZING COMMITTEE

- Ichiro Akai (Chair), Institute of Pulsed Power Science, Kumamoto University, Japan
- Masaru Aniya, Graduate School of Science & Technology, Kumamoto University, Japan
- Fuyuki Shimojo, Graduate School of Science & Technology, Kumamoto University, Japan
- Shinya Hosokawa, Graduate School of Science & Technology, Kumamoto University, Japan
- Masaharu Mitsunaga, Graduate School of Science & Technology, Kumamoto University, Japan
- Yusui Nakamura, Graduate School of Science & Technology, Kumamoto University, Japan
- Daisuke Kosumi, Institute of Pulsed Power Science, Kumamoto University, Japan

SPONSORS

- Kumamoto University
- Kumamoto University, Institute of Pulsed Power Science
- Kumamoto University, Graduate School of Science & Technology

ACCESS MAP (DOWNTOWN ↔ KUMAMOTO UNIV.)

- Kumamoto University

URL: http://ewww.kumamoto-u.ac.jp/en/about/access/access_map/

Kumamoto University is located 2.2 km from the downtown (Touricho-suji, Suido-cho). City bus services (15 ~ 20 minutes) connect the university with the downtown.

- (Ⓐ) Bus stop (Tatsuta Shizen-Koen Iriguchi) from downtown
- (Ⓑ) Bus stop (Tatsuta Shizen-Koen Iriguchi) to downtown
- (Ⓒ) Bus stop (Kumamoto Digaku Mae) from downtown
- (Ⓓ) Bus stop (Kumamoto Digaku Mae) to downtown

- Downtown (Touricho-suji, Suido-cho)

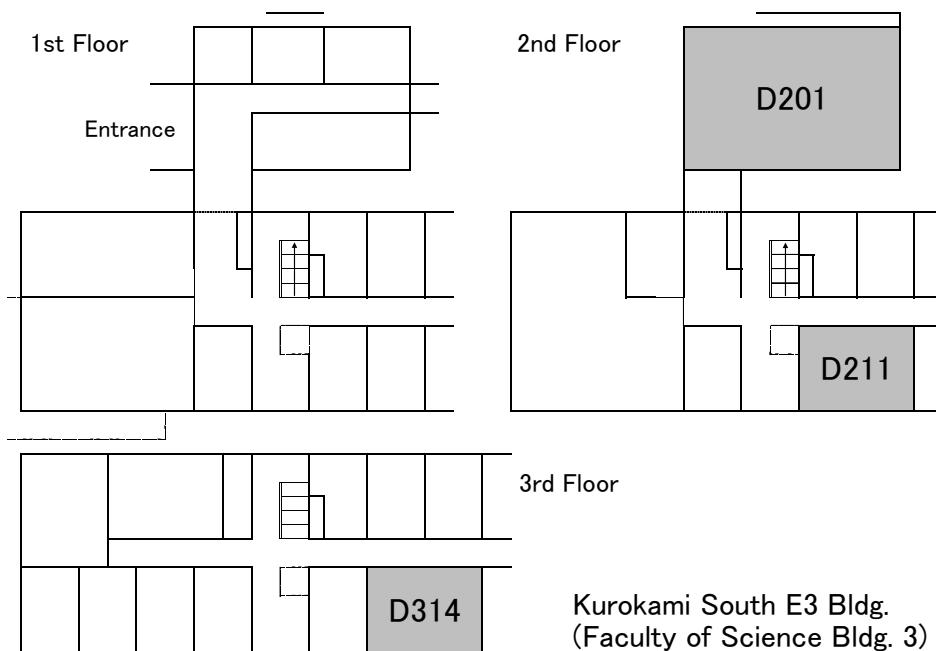

- Hotel Mielparque Kumamoto

URL: <http://www.mielparque.jp/kumamoto/en/>

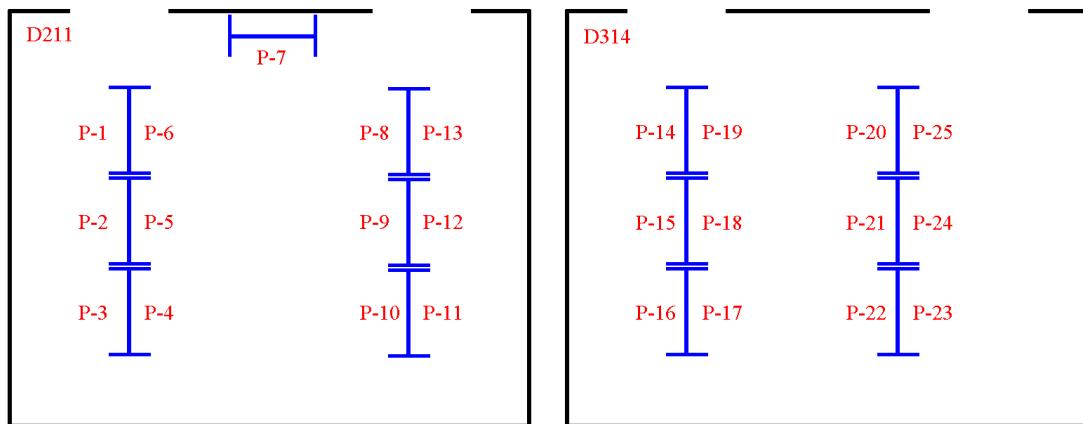

- (Ⓔ) Bus stop (Suidou-cho): Departing bus station of the city bus services bound for Kumamoto University. Buses indicated with 子1, 子7, 子8, 子9, 子18 or 子20 go to Kumamoto University from this bus station. About 15~20 minutes for the University.
- (Ⓕ) Bus stop (Suidou-cho): Arrival bus stop from Kumamoto University.
- (Ⓖ) Bus stop (Touricho-suji): Departing bus station of highway-buses bound for Fukuoka and Aso Kumamoto Airports.
- (Ⓗ) Bus stop (Touricho-suji): Arrival bus stop for the highway-buses from Fukuoka and Aso Kumamoto Airports and city bus services from Kumamoto university.
- (Ⓛ) Bus stop (Touricho-suji): Departing bus station of the city bus services bound for Kumamoto university. Buses indicated with 子1, 子7, 子8, 子9, 子18 or 子20 go to Kumamoto university from this bus station. About 15~20 minutes for the university.

FLOOR GUIDE (Kurokami South E3 Bldg.)

Kurokami South E3 Bldg.
(Faculty of Science Bldg. 3)

POSTER SESSION

INSTRUCTION FOR PRESENTERS

We will prepare a PC projector (SVGA: 1024x768). The presenters of invited talks and oral presentations should check if their own laptop PC could be correctly connected to the projector.

- Invited talks :

Allotted time : 45 or 30 minutes (including the time for Q & A)

- Oral presentations ;

Allotted time : 15 minutes (including the time for Q & A)

- Poster presentations :

Short oral presentations are accompanied before the poster presentations.

Poster boards : 180H x 120W

Short oral presentations : Allotted time : 2 minutes (without Q & A)

The posters must be fixed with pins. Posters should stay on display during the symposium.

Presenting authors should submit an extended abstract. The extended abstract is requested to have two or more pages of A4 size and should include a summary less than 50-words. The format of the summary is free.

ISAMMDoF2015

2nd International Symposium on Advanced Materials Having Multi-Degrees-of-Freedom

- Optical properties, Structural analyses, Imaging and Informatics of materials -

<http://phys.ipps.kumamoto-u.ac.jp/ISAMMDoF2/index.html>

2nd ~ 3rd November, 2015,

Kurokami South E3 Bldg. (Faculty of Science Bldg. 3), Kumamoto University,
Kumamoto JAPAN

Mon, 2nd Nov, 2015

● Registration	9:00~9:25	2F Lobby
● Opening (Prof. H. Akiyama, Director, IPPS)	9:25~9:30	D201
● Session 1 (Chair: S. Hosokawa)	9:30~	D201
9:30~10:15 [I-1]	14
What can we learn from table-top x-ray fluorescence holography experiments? <u>P. Korecki</u> , K. M. Dabrowski, D. T. Dul <i>Institute of Physics, Jagiellonian University, Krakow, Poland</i>		
10:15~11:00 [I-2]	16
Progress of Neutron Atomic Resolution Holography for Observations of Light Elements <u>K. Ohoyama</u> ¹ , K. Hayashi ² , N. Happo ³ , S. Hosokawa ⁴ , M. Harada ⁵ , Y. Inamura ⁵		
¹ <i>Ibaraki University, Japan</i> ² <i>Nagoya Institute of Technology, Japan</i> ³ <i>Hiroshima City University, Japan</i> ⁴ <i>Kumamoto University, Japan</i> ⁵ <i>5J-PARC Center, Japan</i>		
○ Coffee Break	11:00~11:15	2F Lobby
● Session 2 (Chair: F. Shimojo)	11:15~	D201
11:15~12:00 [I-3]	19
Exploring applications of X-ray fluorescence holography <u>K. Hayashi</u> <i>Nagoya Institute of Technology, Japan</i>		
12:00~12:45 [I-4]	21
3D Atomic Structure Imaging of Superconductors and Magnetic Materials by Photoelectron Holography <u>F. Matsui</u> <i>Nara Institute of Science and Technology, Japan</i>		
○ Lunch Break	12:45~13:50	
● Session 3 (Chair: M. Aniya)	13:50~	D201

13:50~14:35 **I-5** 25

Chalcogenide Glasses for Phase-Change Memory: Beyond the Silicon

J. Orava

University of Cambridge, Department of Materials Science & Metallurgy, UK

14:35~14:50 **O-1** 28

Bayesian Estimation of Excitonic Absorption Spectra
